

of the assertion that the drawings do not show all of the features of the claims. Applicants respectfully assert that because the claims do not recite features of an LED, a switch, and a back up power supply, these features need not be added to the drawings.

Applicants note that the effective date of Matsukura is after the filing date of the foreign application to which the present application claims priority. Applicants respectfully submit herewith an English translation of the priority document. Applicants therefore assert that the rejection under 35 U.S.C. § 103(a) has been overcome.

Consequently, in light of the above discussions, the outstanding grounds for rejection are believed to have been overcome. The application as amended herewith is believed to be in condition for formal allowance. An early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER AND NEUSTADT, P.C.
